

International Roaming

Included Destinations

This is a list of destinations where your Everyday Mobile from Woolworths service will work when you add an International Roaming Add-on to your service.

Your device should connect to the roaming network automatically if the device is on auto network select. If you are unable to get a signal, you may have to connect to the roaming network manually. Our preferred roaming networks are listed below. For more information see our <https://mobile.everyday.com.au/support/faqs?c=77>

On Prepaid plans, please note that International Roaming Add-ons are paid upfront and are limited to 4 purchases per 30 day period. On all plans, there is a limit of 2 International Roaming Add-ons per 24 hour period.

Please note that these are for information purposes only and are subject to change.
